

APPAREL 2024

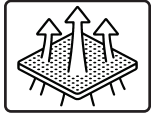

12/24-01

TECHNOLOGIES

FASTER DRYING

Technology that ensures rapid absorption and transfer of sweat to the fabric's exterior, maintaining the garment's lightweight feel and enhancing comfort.

INCREASED BREATHABILITY

Products with high breathability that allow greater air transition. They ventilate the body more effectively and prevent sweat buildup.

ODOR REDUCTION

Bacteriostatic treatment that prevents the proliferation of odor-causing bacteria, providing a sensation of greater comfort during sports activities.

SUN PROTECTION

Technology with permanent SPF 50 protection against UVA and UVB radiation on fabric-covered areas. Ideal for outdoor sports activities.

INCREASED FLEXIBILITY

Fabric with elastane in its composition, ensuring greater flexibility in movements.

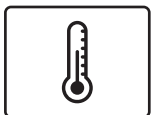

INCREASED COMFORT

Fabric with cotton in its composition, providing a soft and comfortable touch.

INCREASED COMPRESSION

Technology that provides compression and muscle support, helping to prevent muscle fatigue.

THERMAL BALANCE

Technology in the fibers that regulates body temperature, enhancing performance during sports activities.

COOL TOUCH

Technology in the fibers that provides a cooling sensation, with a cooler touch.
