

# TECHNOLOGIES

## GOALKEEPER GLOVES

### 1 - PALMS:

**PROFESSIONAL GRIP**

4mm professional latex. Extremely soft, with very high grip power on the ball. Excellent choice for natural grass.

**GREATER GRIP**

100% natural latex, providing better grip of the ball on the palm. Excellent option for natural grass.

**GREATER DURABILITY**

3mm synthetic latex. Offers a great balance between grip, cushioning, and durability. Due to its resistance to wear, it is particularly suitable for training sessions or games on any type of surface.

**PALMA ESTENDIDA**

**LARGER CONTACT AREA**

Extended latex palm for a larger contact area with the ball, ensuring greater security in grip.

### 2 - BACKHAND:

**3D SYS**

**GREATER IMPACT ABSORPTION**

The 3D SYS technology features 3D components on the backhand of the glove, which helps absorb the impact of the ball and convert it into momentum.

**LIGHT WEIGHT**

**GREATER COMFORT**

Ensures lightweight protection, providing even more comfort.

**DURABILITY**

**GREATER RESISTANCE**

PVC backhand for durability and protection.

### 3 - CUTS:

**SPEED CUT**

**BETTER FIT**

Innovative cut with breathable material and lightweight design that ensures better fit on the fingers and enhanced touch with the ball.

**FLAT**

**BETTER ADAPTATION**

The Flat cut is one of the most traditional. It features a straight cut design that ensures stability for fingers of any shape.

**NEGATIVE**

**GREATER TOUCH WITH THE BALL**

The Negative cut provides a snugger fit, offering greater control and a more tactile feel with the ball.

## 4 - WRISTS:

**PLUS  
STRAP**

**MORE  
PROTECTION**

Elastic wristband with Velcro strap. The strap wraps around the wrist, ensuring stability and preventing injuries.

**QUICK FIT**

**QUICKER  
ADJUSTMENT**

Elastic wristband and Velcro strap for easy and quick adjustment, providing secure fit.

## 5 - TECHNOLOGIES:

**MORE  
GRIP**

Made from grippy material, ensuring the best hand-to-ball grip for optimal performance.

**ENHANCED  
ANATOMY**

The Anatomic Sys technology features strategic and anatomical cuts that allow for a perfect fit and flexibility.

**CURVE  
FIT**

**BETTER  
BALL FIT**

The Curve Fit technology keeps the gloves pre-tensioned, providing greater anatomical shape. This anatomy facilitates movements for better ball grip.

**THUMB  
WRAP**

**MORE CONTACT  
WITH THE BALL**

The Thumb Wrap technology involves the entire thumb, further increasing the contact area with the ball.

**Flat**

**INCREASED  
BREATHABILITY**

Technology in product construction that provides maximum breathability. Ensures thermal balance of the body, maintaining a pleasant temperature and preventing sweat accumulation.

## SHIN GUARDS:

**SHIELD  
SYS**

**MORE  
PROTECTION**

The Shield Sys technology ensures greater impact protection with lightweight design, preventing injuries. With durable EVA coatings, it also ensures enhanced comfort during use.

**KANGURU**

**INTERNAL  
POCKET**

Internal pocket for shin guard support, providing protection during movements without the worry of the shin guard shifting.

## PROTECTION/ELASTIC:

**MORE PROTECTION**

The Shield Sys technology ensures greater impact protection with lightweight design, preventing injuries. With durable EVA coatings, it also ensures enhanced comfort during use.

**ENHANCED ANATOMY**

The Anatomic Sys technology features strategic and anatomical cuts that allow for a perfect fit and flexibility.

**MORE COMPRESS**

The High Compress technology features progressive compression effects, which help prevent muscle fatigue. Highly flexible, it provides greater comfort and security, reducing the risk of injuries.

## ACCESSORIES:

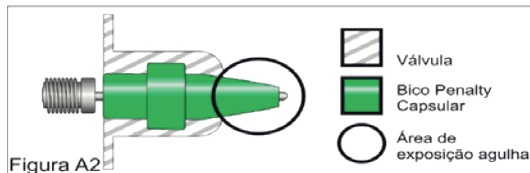

**QUICKER INFLATION**

The Double Action technology inflates the ball in both directions, which provides quicker inflation.

**SAFETY**

Lubricated and replaceable core, with an elongated tip that encases the needle to prevent puncturing the air chamber.

## BEACH SPORTS:

**ENHANCED SAFETY**

Rubber Grip handle ensures greater security during movements, preventing hands from slipping.

**MORE GRIP**

Made from grippy material, ensuring the best hand-to-ball grip for optimal performance.

**MORE CONTROL**

Internal EVA padding ensures lightweight feel and ball control during plays.

**MORE PROTECTION**

Technology with permanent SPF 50 protection against UVA and UVB radiation on fabric-covered parts.

**ODOR REDUCTION**

Bacteriostatic treatment that prevents the proliferation of odor-causing bacteria, providing a greater sense of comfort during sports activities.

**FASTER DRYING**

Technology that ensures quick absorption and transfer of sweat to the outer fabric, maintaining the garment's lightweight and comfort during sports activities.

# DELTA 3D PRO

NATURAL TURF

LIGHTWEIGHT BACKHAND with 3D SYS, ensuring greater protection with lightness and comfort.

CURVE FIT, which features pre-tensioned ball shaping, facilitating ball grip.

Defend all balls with quality, comfort, and safety with the Penalty Delta 3D Pro Goalkeeper Glove. This goalkeeper glove features a 100% natural latex palm that offers superior grip and reduces wear during friction, thereby increasing the product's lifespan. It is recommended for natural grass fields. Additionally, it incorporates Aracnun technology, ensuring enhanced performance and control in the hands during ball contact.

Its standout feature is the Flot technology, allowing excellent breathability and preventing sweat buildup on the palms during matches, ensuring protection during impacts.

## BENEFITS:

**SOFT PRO Palm:** 4mm professional latex. Extremely soft, with high gripping power on the ball. Excellent for natural grass.

**EXTENDED Palm:** Latex extended palm for increased contact area with the ball, ensuring better grip security.

**3D SYS Backhand:** 3D sys technology features 3D pieces on the back of the glove, aiding in ball impact absorption and converting it into momentum.

**LIGHT WEIGHT Back:** Ensures lightweight protection for added comfort.

**SPEED CUT Fit:** Innovative cut with breathable material and lightweight design for better finger fit and ball contact.

**ARACNUN:** Made of adherent material for the best hand-to-ball grip and enhanced performance.

**ANATOMIC SYS:** Strategically anatomical cuts for perfect fit and flexibility.

**THUMB WRAP:** Thumb wrap technology wraps around the thumb, further increasing the contact area with the ball.

**CURVE FIT:** Curve fit technology maintains pre-tensioned gloves, providing better anatomical fit for easier ball grip.

**FLOT:** Product construction technology for maximum breathability, ensuring body thermal balance and preventing sweat accumulation, maintaining a comfortable temperature.

# DELTA RACE

NATURAL TURF

**DURABILITY** backhand that ensures greater protection with durability.

## BENEFITS:

**Palma GRIP LATEX PALM:** 100% natural latex, providing better grip of the ball on the palm. Excellent option for natural grass.

**ARACNUN:** Made of gripping material, ensuring the best hand-to-ball grip for improved performance.

**Back DURABILITY:** PVC back for added protection and durability.

**Negative Cut:** The negative cut offers a better fit, providing greater control and a more tactile feel with the ball.

**PLUS STRAP Cuff:** Elastic cuff with a Velcro strap. The strap wraps around the entire wrist, ensuring stability and preventing injuries.

**THUMB WRAP:** Thumb wrap technology covers the entire thumb, increasing the contact area with the ball.

**FLOT:** Technology in the product construction that provides maximum breathability. It ensures the body's thermal balance, keeping the temperature comfortable and preventing sweat buildup.

# SE7E TRAINING

ARTIFICIAL TURF

**DURABILITY** backhand that ensures greater protection with durability.

Developed for goalkeepers who demand maximum performance, the Penalty Se7e Training Goalkeeper Glove offers an unbeatable combination of grip, durability, comfort, and cutting-edge technology. The Penalty Se7e Training Goalkeeper Glove features X-Grip technology on the palm, ensuring exceptional grip on dry, wet, or dusty fields, allowing you to confidently defend the ball in any situation. Technologies like Flot, Anatomic Sys, and Thumb Wrap ensure a comfortable and flexible fit, enabling natural movement for acrobatic saves.

## BENEFITS:

**X-GRIP Palm:** 3mm synthetic latex. Offers a great balance of grip, cushioning, and durability. More resistant to wear, making it ideal for training or games on any surface.

**DURABILITY Backhand:** PVC back ensuring protection with durability.

**FLAT Cut:** One of the most traditional cuts, featuring a straight cut for stability on any finger shape.

**PLUS STRAP Wrist:** Elastic wrist with Velcro strap. The strap wraps around the wrist for stability and injury prevention.

**ANATOMIC SYS:** Strategically anatomical cuts for a perfect fit and flexibility.

**THUMB WRAP:** Technology that wraps around the thumb, increasing the contact area with the ball.

**FLOT:** Product construction technology for maximum breathability, ensuring body thermal balance and preventing sweat accumulation, maintaining a comfortable temperature.

# DELTA 1

NATURAL TURF / ARTIFICIAL TURF / COURT

**DURABILITY** backhand that ensures greater protection with durability.

**FLOT Technology** - Mesh backhand for enhanced breathability.

**X-GRIP palm**, ensuring greater durability.

The Penalty Delta 1 Goalkeeper Glove was developed to provide comfort, safety, and durability during matches. The goalkeeper gloves feature adjustable self-adhesive straps on the wrists, aiding in injury prevention during ball contact. The Penalty Delta 1 Goalkeeper Glove includes Flot technology, providing enhanced breathability to prevent sweat buildup during use. The Anatomic Sys ensures a comfortable and flexible fit, allowing free movement and natural acrobatic saves. Additionally, it features a Flat cut for stability on any finger shape.

#### **BENEFITS:**

**X-GRIP Palm:** 3mm synthetic latex. Offers a great balance of grip, cushioning, and durability. Particularly resistant to wear, making it ideal for training or games on any surface.

**DURABILITY Backhand:** PVC back providing protection with durability.

**NEGATIVE Cut:** Provides a snug fit for greater control and tactile sensation with the ball.

**QUICK FIT Wrist:** Elastic wristband and Velcro adjustment strap for easy and secure fit.

**ANATOMIC SYS:** Strategically anatomical cuts for a perfect fit and flexibility.

**FLOT:** Product construction technology for maximum breathability, ensuring body thermal balance and preventing sweat accumulation, maintaining a comfortable temperature.

# S11 PRO

Durable shell with Shield Sys, ensuring high protection.

NEO GEL molded with channels, ensuring greater comfort and enhanced breathability.

Includes a pair of supports that ensure fixation on the shin.

Avoid injuries during matches with the Penalty S11 Pro VII Shin Guard. This model is made of polypropylene, a material that absorbs impacts effectively. Its design is suitable for field soccer, indoor soccer, and futsal, making it perfect for skilled players who embrace challenges and showcase their abilities on the field.

The Neogel cushioning provides enhanced comfort during use.

## BENEFITS:

**SHIELD SYS:** Shield Sys technology ensures greater impact protection with lightweight materials, preventing injuries. Featuring resilient EVA linings for added comfort.

**ANATOMIC SYS:** Anatomic Sys technology incorporates strategic and anatomical cuts, allowing for a perfect fit and flexibility.

**FLOT:** Product construction technology for maximum breathability, maintaining body thermal balance and preventing sweat accumulation, ensuring a comfortable temperature at all times.
